

# **The Hampton Approach to Child Centered, Family Focused, Community Based Practice**

**Presented by:**

**Walt Credle, Hampton DSS Director**

**Wanda Rogers, Hampton DSS Asst. Director**

**Denise Sterling-Gallop, CSA Coordinator**

**November 20, 2007**

# Hampton Virginia Systems of Care

## Core Values and Beliefs

- ❖ Keeping children and families together is the best possible use of resources.
- ❖ Hampton CPMT and FAPT partner with all who can support children and families' successful outcomes.
- ❖ We begin with outcomes not process.
- ❖ Families are the experts about their families.
- ❖ All stakeholder groups are accountable for positive outcomes for children and their families at home, school and in the community.
- ❖ Child centered, family focused and community based service delivery is the law and must be turned into actions.
- ❖ We will do ***whatever it takes*** to support the success of children and families.
- ❖ Trying hard is not good enough. [Trying Hard Is Not Good Enough](#)  
by Mark Friedman - 2005

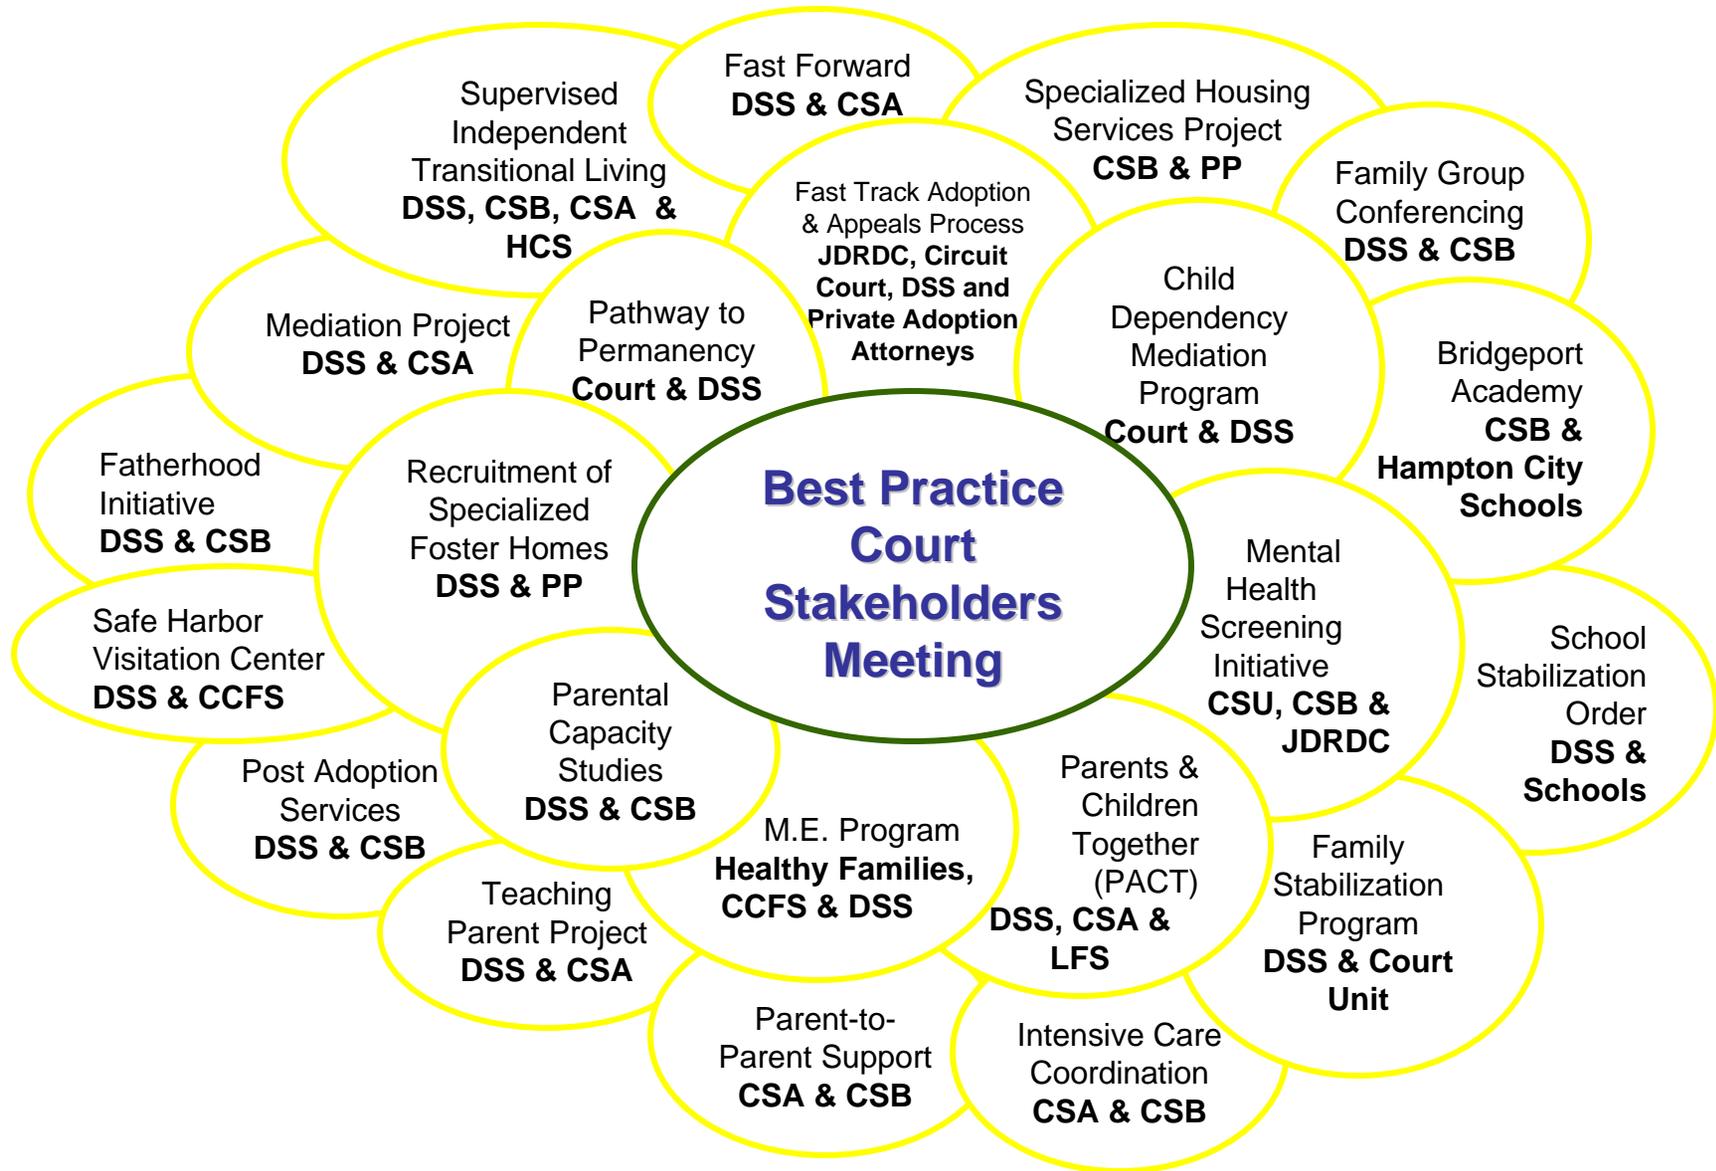

# **The Hampton Service Delivery System**

The purpose of budgeting for CSA locally is not to cap spending but rather to require that the money is spent differently.

# **Community Based Services in 1997**

**Youth were in Residential Treatment**

# Community Based Services in 2007

**This Community Service System was created one child at a time.**
