

LEGISLATIVE TRANSITION TASK FORCE

PROPOSED WORK PLAN

- October 16, 2001: Siting of electricity generation facilities, including related issues:
- (i) Setting aside capacity for Virginia's market
 - (ii) HB 2759 -- Environmental impact analysis
 - (iii) Requiring generators to make power available in emergency situations (Senator Watkins)
- November 2001: HB 1940 -- Member-regulation by electric distribution cooperatives
- Continue consideration of electricity generation facilities siting issues
- December 2001: HB 2853 -- Rate caps for local government customers
- Report by Consumer Advisory Board
- Completion of unfinished items
- Consideration of proposed amendments to the Restructuring Act

NOTE: At each meeting, the SCC will update the Task Force with respect to activities associated with the implementation of the Restructuring Act
