

JCOTS

2015 Work Plan

(as approved on 4/15/15)

Issues Continued From 2014

- Preparedness for Electromagnetic Pulses & Geomagnetic Disturbances [SJ 61 (2014) (Reeves)]

- Nanosatellites Advisory Committee

2015 Session Legislation

HB 1743 (Hugo)
Research & Development

- Makes changes to the existing research & development income tax credit for expenses related to research & development.

HB 1920 (LeMunyon)
Consumer Protection Act

- Provides that a service provided by a public service corporation is subject to the Consumer Protection Act if such service is not regulated by the State Corporation Commission.

HB 2037 (Bulova)
Personal Information

- Limits motor carrier's use of personal information gathered from passengers.

HB 2336 (Peace)/SB 1420 (Reeves)
IT Procurement

- Requires that liability provisions contained in a solicitation for IT goods and services be reasonable (not to exceed twice the value of the contract).

HB 2352 (D. Marshall)
Broadband

- Requires a person installing pipeline across multiple counties to install conduit capable of housing cable or wiring for broadband service.

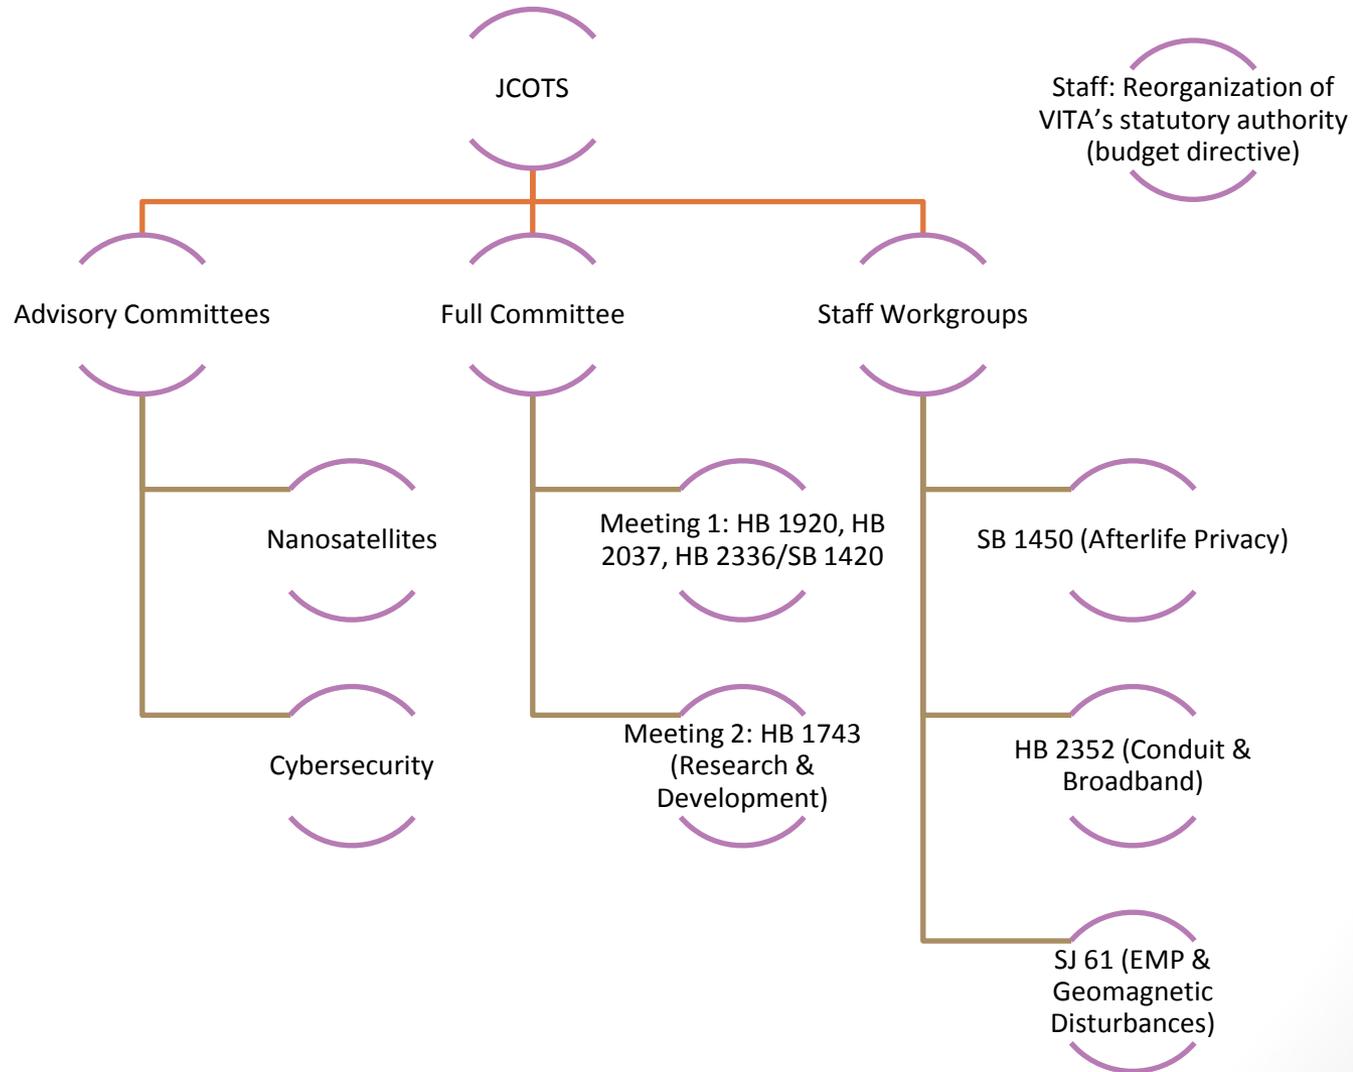

SB 1450 (Obenshain)
Privacy Expectation Afterlife & Choice Act

- Directs JCOTS to study implementation of the Act (adopted by the 2015 Session) and make recommendations address access to electronic communications and digital account records by guardian ad litem, conservators, and fiduciaries.

Other Issues

- **Cybersecurity**: Explore how Virginia can establish a public-private partnership for promoting collaborative cybersecurity research & development between existing cybersecurity companies operating in Virginia and the higher education community in the Commonwealth in order to achieve commercially viable cybersecurity outcomes.
