

## 2006 Electronic Government Advisory Committee Recommendations

The Electronic Government Advisory Committee met twice during the interim to discuss the issues relating to the provision of services to citizens by the Commonwealth. Discussions ranged from Virginia's recent ranking as number two on the annual Center for Digital Government survey, to the need for standardization on state websites, to privacy and security issues.

### **Recommendations:**

- I. **Policy Statement; Privacy & Security:** The Electronic Government Advisory Committee recommends that JCOTS adopts a policy statement underlining the importance of privacy and security as the state continues to pursue e-government solutions.
