OFFICE OF THE STATE INSPECTOR GENERAL

BACKGROUND

August 24, 2015

OSIG received a complaint regarding an individual found dead in jail cell at HRRJ (August 19, 2015) while awaiting transfer to Eastern State Hospital for Restoration to Competency.

BACKGROUND

Complainant believed the death to be related to loss of significant amount of weight due to refusal to eat in four months spent in jail.

BACKGROUND

- **OSIG began its investigation into this event August 25, 2015, acting under our authority as defined in the Code of Virginia.**
- **OSIG's investigation included a review of the DBHDS investigation as part of our report.**

BACKGROUND

OSIG's investigation included multiple entities and a four-month timeline that crossed:

DBHDS

ESH

HRRJ

**Portsmouth Department of Behavioral
Healthcare Services**

Portsmouth General District Court

NaphCare Inc.

Bon Secours Maryview Medical Center

OSIG OBJECTIVES

- **Examine sequence of events surrounding the death of this individual at HRRJ**
- **Review referral & admission processes between HRRJ & Eastern State Hospital**
- **Review DBHDS's Office of Internal Audit Investigation Report released to OSIG March 16, 2016**

OSIG GOALS

OSIG's goals were to:

- **Identify potential risk points in the referral and admission processes**
- **Recommend systemic improvements in order to prevent similar events in the future**

OSIG OBSERVATION No. 1

- **Transfer processes from HRJJ to ESH had multiple decision & risk points.**
- **Numerous opportunities for variation, unanticipated, & negative outcomes.**
- **No existing regional protocol relevant to jail transfers.**

OSIG OBSERVATION No. 2

The impact of the 2014 safety net law did not limit the availability of a bed on the male jail transfer unit at ESH when this individual needed it.

OSIG OBSERVATION No. 2

- **Following this event, ESH revised the structure of the admissions office and communication.**
- **The process for developing and ensuring the accuracy of the Jail Transfer Waiting List was not addressed.**

OSIG OBSERVATION No. 3

The DBHDS Transformation Team for the Justice Involved made several substantive recommendations in the spring and fall of 2015 that have yet to be acted upon to advance the quality of care for these individuals.

OSIG OBSERVATION No. 4

- **DBHDS Office of Internal Audit Investigation Report did not identify possible root causes of this event.**
- **Recommendations not tied to root causes have little chance of achieving the goal of preventing similar events in the future.**

OSIG OBSERVATION No. 5

HRRJ has a direct responsibility to provide quality medical & mental health care for those in custody.

OSIG OBSERVATION No. 5 (CONTINUED)

NaphCare records provided were incomplete & inconsistent and evidenced little action related to the individual's psychiatric or medical symptoms outside of prescribing psychiatric medications.
