Consumer, Environment & Education Decision Tree

§ 56-590. Public Purpose Programs.

 \Rightarrow

Should energy assistance programs for low-income households be established? [CEE Staff matrix pp. 1-4]

IF YES, WHICH PROGRAMS? (item 1).

- Rate subsidies
- Weatherization
- Crisis assistance.
- Voluntary programs (item 5)
- Other

IF YES, who would be eligible for program benefits? (item 2)

- Households meeting 180% of Federal Poverty Guidelines.
- Guidelines.

 Households meeting the current Low Income Home Energy Assistance Program (LIHEAP) and Weatherization Assistance Program (WAP) guidelines: 150% of

IF ANY PROGRAMS APPROVED, HOW FUNDED? (item 3).

 Voluntary customer payments.

⇒i

- Nonbypassable wires charges (surcharges on all customers' bills)
- State appropriations
- Other.

IF YES, on what general basis should benefits be calculated? (item 2)

- Percent of Income Plan.
- Other.

IF PROGRAMS APPROVED, HOW ADMINISTERED? (item 4).

SCC

 \Rightarrow

- Other agencies with expertise.
- Special administration for "vulnerable" groups
- Other

Federal Poverty
Guidelines.
Any low-income
household
qualifying for
any means-
tested benefit
within the past
12 months.

Aggregate load with private entities outside their jurisdictions. • Aggregate load with localities outside Virginia. • Aggregate load with private entities outside Virginia. Other.

 \downarrow

§ 56-589. Consumer Protection and Education.

Should Consumer education programs be formally established as part of Virginia's restructuring. [CEE Staff matrix, pp. 4-7] IF YES, for what purpose (item 7):

- Inform of opportunity to choose generation suppliers.
- Interpretation of information generation suppliers required to furnish.

 \Rightarrow

- Inform consumers of their rights and obligations in restructuring.
- Completely nonpromotional and unbiased.
- Other.

IF YES, when should the programs begin, and for what duration (items 8 & 12).

 At least 6-12 months prior to commencement of retail competition.

 \Rightarrow

- In advance of the transition, during, and for a reasonable period thereafter.
- Continue program indefinitely.
- Begin on July 1, 1999.
- Long term program as well (matrix, pg. 6)
- Other.

IF YES, which agencies or other groups should have regulatory oversight or participation (item 10)

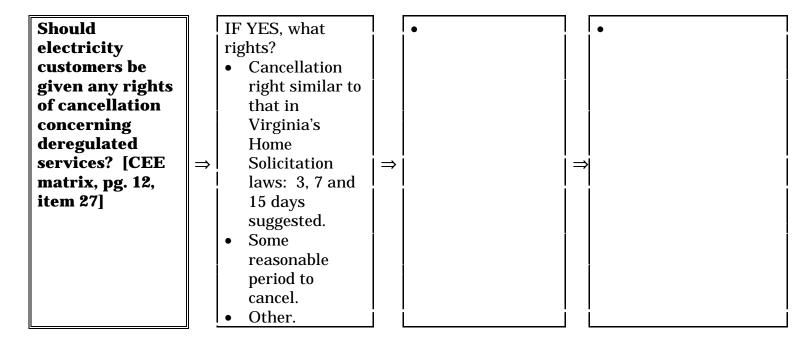

- SCC should be in charge.
- SCC and DMME should be in charge.
 - SCC should be in charge, assisted by the Office of the A.G.
 - SCC, plus state agencies with experience in reaching certain target populations (e.g., low income, elderly, etc.)
 - SCC, assisted by Social Services, Housing & Community Development, Agriculture & Consumer Services and many other enumerated agencies.
 - Community-based nonprofits should participate.
 - Other.

How should
Virginia address
deceptive
marketing
practices in a
restructured
market? [CEE
Staff matrix, pg.
11, item 24]
, <u>-</u>

- Prohibit Slamming.
- Prohibit Cramming.
- Prohibit intrusive telemarketing practices.
- Make the Virginia Consumer Protection Act applicable to the marketing of electricity.
- Direct the SCC to develop regulations governing marketing practices.
- Other.

IF SLAMMING IS ADDRESSED IN STATUTE, WHAT PROTECTIONS SHOULD BE PROVIDED? [matrix page 12, item 28]?

- Practice can be satisfactorily addressed through the registration and certification of energy suppliers.
- Require affirmative choice verification.
- Require independent third party verification if supply service sold through telemarketing
- Prohibit slammer from collecting any payment for services from slammed customer.
- Require all electric supply contracts to be in writing.
- Give customers at least three days to cancel contracts after acceptance.

IF TELEMARKETING
IS ADDRESSED,
WHAT PROTECTIONS
SHOULD BE
PROVIDED? [matrix
pg. 13, item 29]

- Prohibit the use of misleading supplier names.
- Permit individuals to remove their names from telemarketing lists.
- All telemarketers of electricity should be required to register with the SCC.
- Apply provisions of Virginia Consumer Protection Act to telemarketers of electricity.
- Other.
